USE/INSTALLATION GUIDE

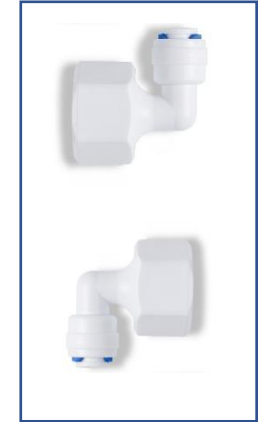

The Thirsty Nomad 5 in 1 Purifier can be installed permanently (inline) at the point of use (i.e under your sink) in either 12mm blue water line or ¼" (commonly referred to as 6mm) water line or used with standard hose fittings to fill your tanks or a water container.

When you buy a 5 in 1 and select "Permanent Installation" on checkout – **you will receive straight push fittings for both 12mm and ¼" water line.** Should you discover that you require an elbow connection for your set up, these are available to purchase additionally in online or at most good caravan accessory stores.

When you buy a 5 in 1 and select "Tank Filling Use" on checkout – you will receive our ¼" to ½" brass hose connector fittings that connect into a standard garden hose fitting.

If you require Elbow ½" Female NPT thread to 12mm tubing adaptor, these are available here online at The Thirsty Nomad

If you require Elbow ½" Female NPT thread to ¼" tubing adaptor, these are available online here at The Thirsty Nomad

For tank filling with garden hose connections
