

NEW PRODUCT RELEASE

Ultra Slim 6 Way & 10 Way Touch Switch Control Panels

Introducing Drivetech 4x4's newest, Ultra Slim 6 Way & 10 Way Touch Switch Control Panels. The compact slim line design is easy to install and comes with a one metre USB cable to connect to the remote control box.

The panels are controllable both manually and via Bluetooth on both Android and iOS phones, with sleek customisable virtual switch panels. Each switch can be programmed to be momentary with the easy flick of a button.

Perfect for 4WD campers, caravans, RV's and marine applications, the panels are IP67 rated for added protection, and have backlight illumination for easy night time use.
