# FIRST RESPONSE KEY FEATURES

## MOST TYPES OF FIRES

Suitable for most common types of early stage of fires you would find in your car, boat, 4WD, caravan and small domestic applications such as cooking fires.

## SAVE SPACE & WEIGHT

In the boat, car, caravan & 4wd saving space & weight is a massive advantage of the First Response.

## EASY TO USE

Everyone can use the simple push button start. Holding and operating an extinguisher is now easier than ever.

## NO MESS TO CLEAN UP

Save time and frustration. There's no powder storm or residue to clean up and no damage caused to wiring down the track.

## NO MAINTENANCE EVER

Fire One doesn't need any physical maintenance, however we suggest a regular visual inspection. It has a shelf life of five years after the date of manufacture.

## NON TOXIC GREEN AGENT

Breathe easy. Environmentally Friendly, non-toxic materials used.

## CLASSES OF FIRE

**B**

FLAMMABLE LIQUIDS

**C**

FLAMMABLE GASSES

**E**

ELECTRICAL FIRES

**F**

KITCHEN FIRES

## 4 BASIC STEPS FOR USING FIRST RESPONSE

The acronym **PASS** is used to describe these four steps.

### PULL

Pull the manual safety ring at the bottom of the unit.

### AIM

Point the nozzle towards the base of the flames.

### SQUEEZE

Press the start button.

### SWEEP

Sweep the device from side to side as you approach the fire, directing the extinguishing agent towards the base of the flames. Allow the unit to finish discharging.

## Fire One

Suite 4, 750
