INSTALLATION INSTRUCTIONS

FOR TOYOTA HILUX 2021-2022

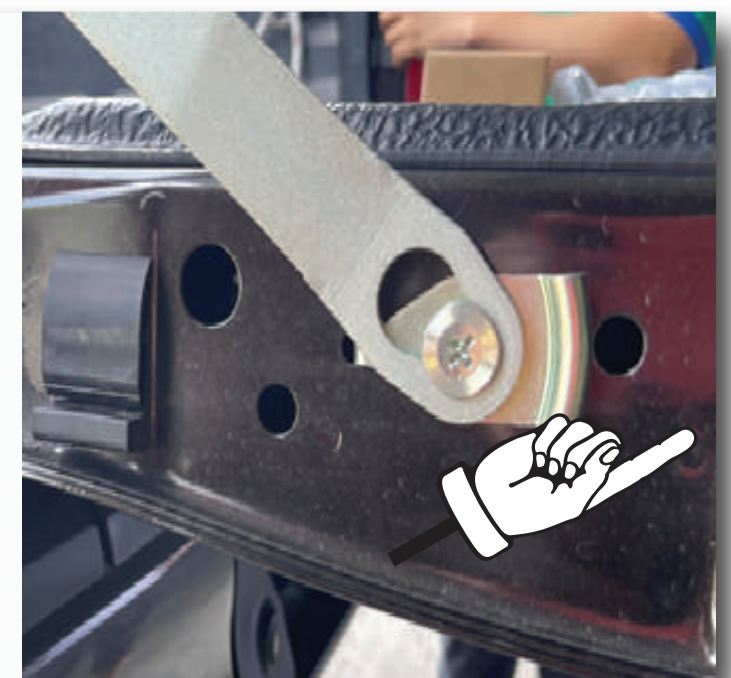

01

**** Installation begin from the Driver Side ****
Remove the steel strap from the body by loosening the bolt (*Red arrow*), loosen up the bolt for the light (*Yellow arrow*) and remove the rubber (*Green arrow*)

02

Remove the steel strap and bracket from the tailgate

03

Remove the rubber from tailgate

04

Remove the taillight

INSTALLATION INSTRUCTIONS

FOR TOYOTA HILUX 2021-2022

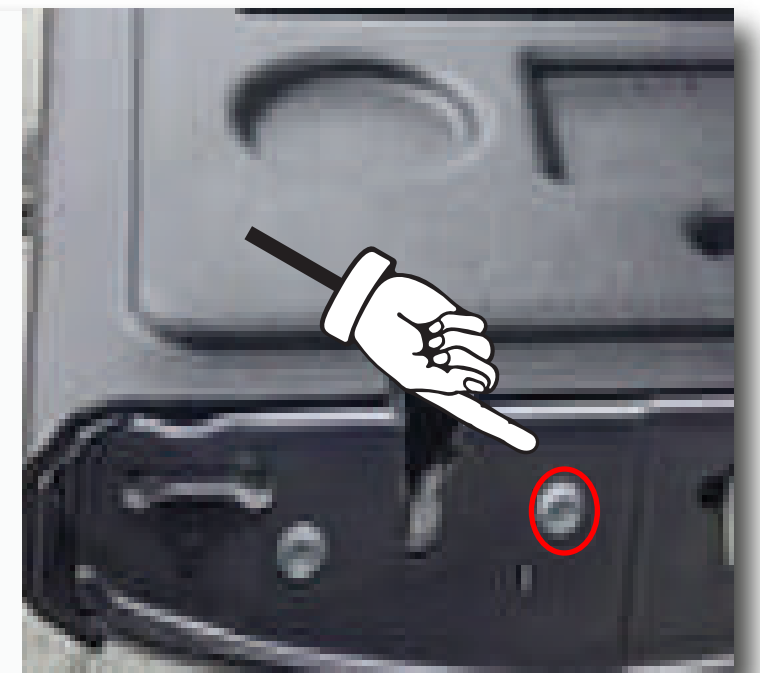

05

Install the slow down strut. Attach the cable on strut bolt first, followed by a washer. Then place the assembly through the factory hole as shown. Tighten up with locknut and washer

06

Remove the factory bolt from lock assembly on the tailgate

07

Replace with the special bolt provided and put a thin washer against the tailgate then attach the cable on the bolt

08

Remove the factory bolt from the hinge closest to the tub and install the strut bracket as shown. Ensure that the lip of the bracket sits under the hinge

INSTALLATION INSTRUCTIONS

FOR TOYOTA HILUX 2021-2022

09

Reinstall the taillight assembly. Now you have done the installation for slow down strut. Repeat the process on the passenger side to install the easy up strut
